## **NEWS FOR IMMEDIATE RELEASE**

### **Brian Suerth Accepts Position FreedomVoice Systems, Inc. Advisory Board**

SAN DIEGO, CA — June 1, 2011 — Technology Assurance Group (TAG), an international organization of leading unified communication providers, announced today that Executive Vice President and Partner, Brian Suerth, has joined the FreedomVoice Systems Advisory Board.

FreedomVoice Systems, a TAG strategic Partner, was established in 1996 and is one of the first providers of toll free numbers and toll free number service solutions in the United States. Today, FreedomVoice Systems provides businesses with communications tools and cutting-edge features to enhance their professional image, improve their connectivity, create flexibility, and increase efficiency. Just over 60 TAG members sell FreedomVoice Systems' hosted VoIP solutions to their customers.

**Brian is responsible for managing TAG's team of business consultants, supporting the development and implementation of the company's strategic direction, and creating innovative programs designed to increase TAG Member profitability. He plays a vital role in driving the growth and performance of TAG Members by delivering in-depth training and consultation in the areas of management, sales, strategic planning, marketing and public relations. Since working at TAG, Brian has also since made Partner at Voice Smart Networks, a data and voice company who is an active TAG member.**

**Suerth's business experience with TAG and knowledge of the communications industry will be a great asset for the FreedomVoice Systems' Advisory Board. Brian's role at TAG allows him to analyze the industry as a whole while his role at Voice Smart Networks gives him an insider's look on the data and voice industry. These two aspects will bring a new outlook to the board when assisting with the challenges and opportunities that this industry brings to FreedomVoice. "At my position within TAG I work closely with both our members and partner companies," says Mr. Suerth. "FreedomVoice Systems has been a loyal partner to TAG for a number of years and I hope to play an instrumental role in their development and growth."**
