CONTRAST

Contrast

Contrast is a regional provider of Communication and IT solutions and services. We provide custom on-premise and cloud-based solutions, managed services and live, 24/7 customer support for voice and unified communications systems, contact centers, HD video conferencing, infrastructure, networking, and storage and back-up. High performance businesses, governments and non-profit organizations choose Contrast to CONNECT, CLOUD-enable and CARE for their end-to-end communication and IT requirements. For more information please visit www.contrastcommunications.com or call (570) 966-1515.

Managed IT Services

Our computer services provide small and medium businesses in Central and Northeastern Pennsylvania with quality solutions that save time and money. The goal of Contrast is to deeply understand the goals and needs of your business. We want to learn your work processes and overall mission as a company. This is important in developing IT solutions that compliment your company and help take it to the next level.

Our diverse IT background allows us to provide companies with customized solutions that work, including:

- Desktop Support
- Backup & Recovery
- Managed Antivirus
- Network Security
- Network Monitoring
- Windows Server Support
- Collaboration Software
- Document Management
- Server & Desktop Virtualization
- Microsoft 365 Services
- Brainstorm
- Fixed Price IT Services

For a fixed monthly price, we offer full IT services to your company. Traditionally, IT companies provide only support services at an hourly rate. Alternatively, we provide hardware, software, and support for a fixed monthly price. This allows your company the freedom to focus on increasing productivity and generating revenue. No more surprise monthly statements with unauthorized overages. With a fixed monthly bill, you can budget your costs and control your spending.

Phone Systems

VOIP PHONE SYSTEMS FOR BUSINESS

With Contrast's Cloud Services, your business gets a fully-hosted telephone system that is secure and reliable – enterprise class service without the enterprise-class cost. We put everything in the cloud, so there is less to manage, and it is "future proof" with additional features and functionality immediately available as developed. No more new phone system every five to seven years. This could be the last phone system you'll ever need!

BENEFITS OF USING VOIP

1 
ENTERPRISE CAPABILITIES

2 
SCALABILITY

3 
CONNECT MULTIPLE LOCATIONS

4 
INITIAL COST SAVINGS

5 
ONGOING COST SAVINGS

6 
WORK ANYWHERE

7 
PRESENCE AND IM

8 
BUSINESS CONTINUITY

9 
RELIABILITY

CONTRAST MOBILE COMMUNICATOR

Contrast mobility solutions for Unified Communications allow employees to stay in contact no matter where they are. Contrast Mobile Communicator is a real-time presence and communications client for Android and iPhone that delivers a complete Unified Communications experience to mobile workers by integrating them into the corporate Voice and Unified Communications system. Contrast mobility solutions provide critical tools like voice mail access and management, presence, internal extension dialing, corporate directory access, and least cost routing to cut international call costs. Contrast Mobile supports call group functionality, allowing users to make and receive calls for the call group extension from their smart phones. Users can also share files with coworkers over the application.

Video Surveillance

SECURITY CAMERAS FOR BUSINESS

Contrast offers the latest in camera technology, video surveillance products and smart devices. Contrast provides comprehensive end-to-end security solutions backed by years of global success and experience that spans a vast array of industries such as retail, hotels, banking, education, healthcare and much more. View the benefits of equipping your business with the latest state-of-the-art security systems that will help protect what you and your team are building.

BENEFITS OF OUR SECURITY CAMERA INSTALLATIONS

Here are some common features you'll enjoy with our security camera setups:

- Compatible with any software OS
- Access through browser
- High resolution with multiple outputs including AHD, CVI, TVI, and CVBS
- Manage everything from anywhere on the cloud

LEARN MORE ABOUT CONTRAST SECURITY

The Contrast video surveillance system that we install is compatible with Windows, Mac, iPhone and Android ready devices. Everything is uniform across the board, so the presentation of information is exactly the same on every platform you choose to use. Additionally, the security software we offer our clients will work directly via a browser and provide the same layout GUI (Graphical User Interface) and handy features as our installed software.

Structured Cabling

Contrast can build your network to meet your current and future needs, making the infrastructure secure and the network accessible to your staff.

Our experienced team provide creative, flexible, standards-based design solutions for your low voltage systems. We will provide facility evaluation, technology consultation, and design, project management, and installation as well as offer maintenance services when required.

FIBER OPTICS

Contrast offers fiber optic cabling systems design, installation, and repair services for both indoor and outside plant applications. Contrast technicians are extensively trained on the latest fiber optic products and installation methods providing you with an installation that exceeds industry standards. We provide cabling for backbone, horizontal, passive

optical networks, distributed antenna systems, video surveillance systems, and more. Contrast provides fusion splicing services for standard installations as well as emergency repairs and our techs will perform end to end loss measurements and/or OTDR traces and supply a copy of the test results to you.

STRUCTURED CABLING

Contrast provides design, installation, and repair of low voltage structured cabling systems. We offer a credentialed RCDD on staff to provide consulting, design, assessment, project oversight, installation supervision, and documentation services. Our technicians are extensively trained and certified on the most advanced fiber optic and copper products and installation methods. Contrast installations exceed ANSI/TIA and BICSI standards for cabling installations and testing. In addition, we provide test and certification documentation for all of our installed fiber optic, Category 5E/6/6A, and coax cabling. Contrast provides up to a lifetime warranty on our structured cabling systems.

National Services

The world is truly becoming a smaller place. Multi-site and multi-state organizations are becoming a more common reality. If you find yourself in this situation, know that Contrast will support you and deliver our full range of services to almost anywhere in the United States. Support every office like it's your "main" office, by giving your staff the tools and support resources necessary to maximize their contribution to your bottom line.

WHEREVER YOU NEED US

Through our membership with Technology Assurance Group (TAG), an association of managed technology services providers (MTSPs) serving more than 130 marketplaces across the United States and Canada, Contrast truly has the ability to deliver a national support solution.

As a premier member of TAG, Contrast is now positioned as the leader in managed technology services, providing advanced solutions to the marketplace. To become a TAG Member, we met rigorous annual qualifications through required company and employee training programs. This unique relationship enables us to adopt cutting edge best business practices, deliver innovative programs, and partner with elite technology manufacturers and application service providers. As a result of this exclusive membership, Contrast is the most competitive company in the industry. We have a greater capacity to increase our customers' profitability, enhance employee productivity,

and provide sustainable competitive advantages. To learn more about TAG, please visit www.tagnational.com.

WHENEVER YOU NEED US

Contrast will be there when you need us. Whether it's an implementation we're planning together weeks or months in advance, or an emergency service ticket in the most remote part of the United States, you can count on us to honor our commitments. We even give you the ability to monitor the status of each project or service request via our web-based Customer Portal, where you can enter, track, and review the status of service tickets at any point in time.
