TELECO
Integrating Technologies

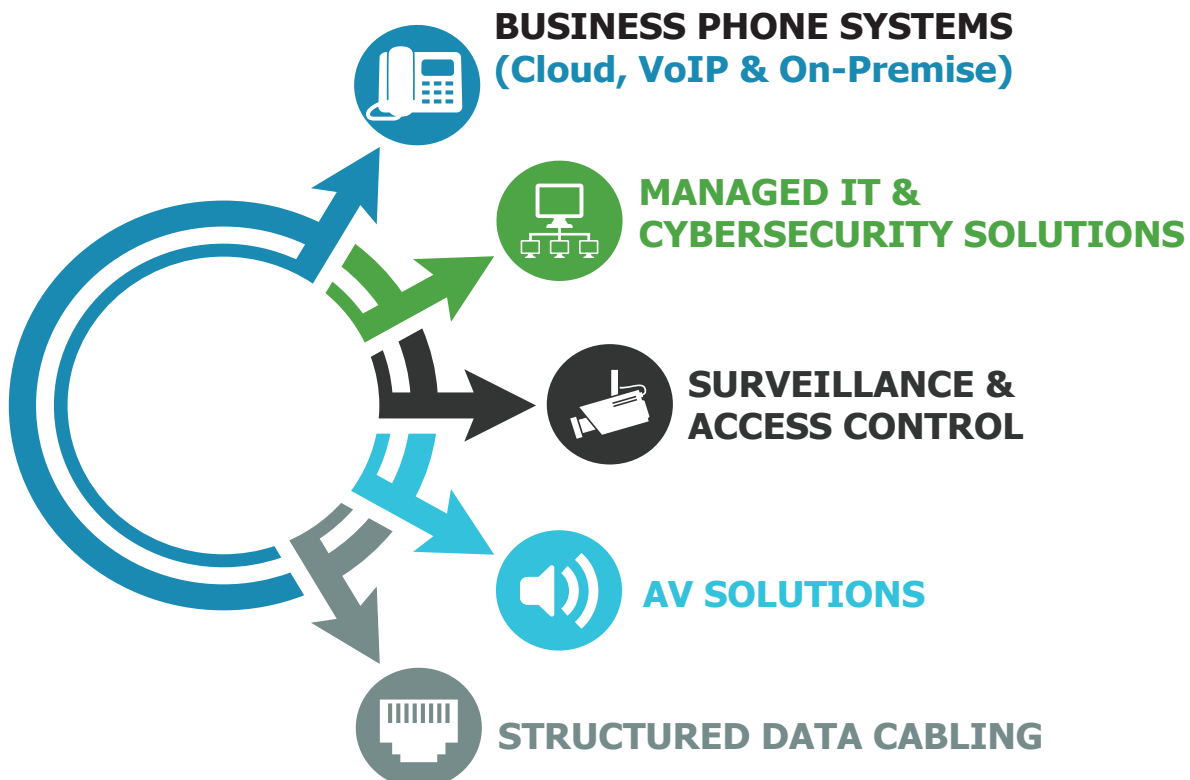

ABOUT TELECO

About Teleco

Teleco is a locally owned Managed Technology Service Provider, committed to delivering innovated and cutting-edge solutions and products in Thunder Bay and Northwestern Ontario since 1985. A lot has changed over the years and we are proud of how we have evolved to understand our clients' needs and assist them to implement and maintain technology to benefit their business.

As an outsourced Managed Technical Service Provider (MTSP), we give businesses a lower cost alternative and a higher level of service. We are here to offer scalable solutions to help simplify and alleviate the IT issues that come with running a business. We strive to make your business our business and help clients with a proactive approach to all their IT spending by creating a reachable technology roadmap that is affordable. Our goal is to help business owners take control of their IT budget instead of being reactive. Working with you we create a strategic plan for all your technology for immediate improvements and sustainable growth over time.

TECH SOLUTIONS WE PROVIDE:

Cloud Solutions

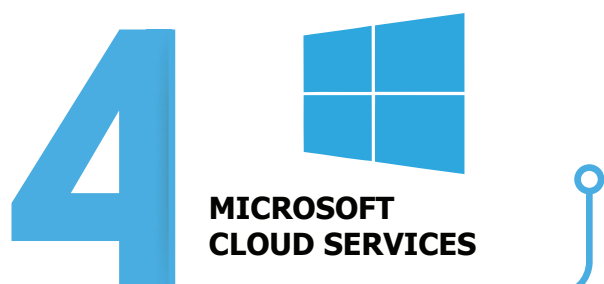

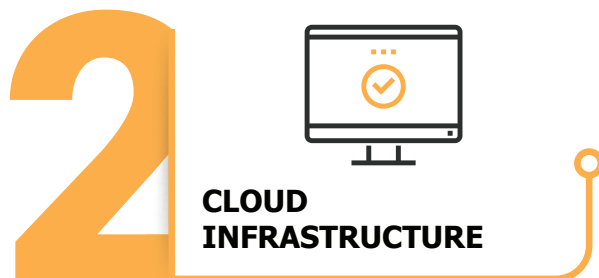

The importance of cloud computing in business is no longer reserved for enterprise businesses only. Cloud technology is a great, equally accessible fit for small and medium sized businesses.

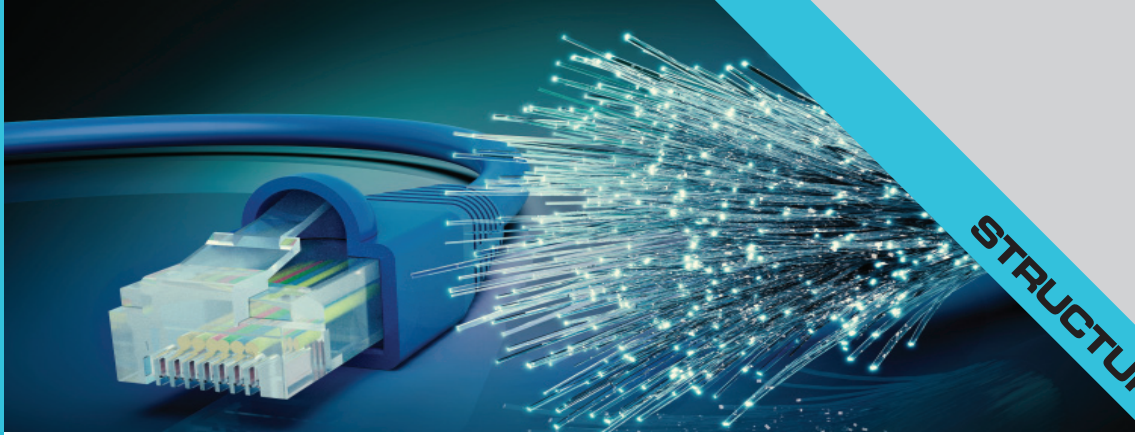

ADVANTAGES OF CLOUD SOLUTIONS

- Improved Security
- Ease of Collaboration
- Reduction in Costs
- Flexible Access
- Increased Efficiency
- Flexibility
- Scalability
- Compatibility
- Remote Work
- Business Continuity

As a Managed Technical Service Provider (MTSP), Teleco offers customized solutions that offer scalability and seamless deployment through an integrated approach. Our dedicated cloud experts will try to meet your existing and future technology needs in a seamless manner.

STRUCTURED CABLING

Structured Cabling

Structured cabling is the design and installation of a cabling system for your business that supports your business technology needs today and the future. It is vital to support seamless communication and networking and is the backbone of your organization. It is extremely important with how fast technology evolves and changes.

As a Certified Structured Cabling Contractor, we invest in continuous education and training to meet industry standards to provide reliable design, installation, and support of your cable infrastructure.

Benefits of choosing a technology company to design and install your structured cabling.

- Future Proof Investment
- Simplicity
- Cost Effective
- Enhanced Flexibility
- Reduce Risk of Downtime
- Adaptability for Growth
- Fast & Proper Installation Deployment
- New Technology Training
- Valuable Product Warranty
- Onsite Support

Choose a certified contractor and future proof your business's technology today.

VIRTUAL CIO FOR YOUR SMALL TO MID-SIZED BUSINESS

Regardless of business size you deserve the ability to manage and align your IT with your business vision and goals. A Virtual Chief Information Officer (vCIO) will help you in creating this IT strategy and by being virtual will be a predictable cost-effective resource. As an MTSP with vCIO services we work with you to build a strong technology strategy that will increase employee

productivity, reduce operational risks and plan for your future. Our vCIO service is not to sell hardware and software. It's our vision to ask the right questions to create an IT vision and strategy that aligns with your goals, today, tomorrow and into the future.

The traditional approach to IT is changing and with constant advancing technology it's important to take a proactive approach to improve your products and services.

Voice Solutions

At Teleco, we understand that every business is unique, and each has specific communication needs. We also understand that Northwestern Ontario can have particular technology challenges and we offer a variety of solutions that are designed to fit and adapt to your organization and the challenges you face.

TRADITIONAL PREMISE PHONE SYSTEMS

Our on-premise communication solution combines the reliability and ease of a traditional telephony system with the applications and advantages of an IP telephony solution. This converged communications solution can help businesses reduce costs, increase productivity, and improve customer service.

HOSTED CLOUD PHONE SYSTEMS

Our fully managed hosted voice solution provides all the features of a traditional phone system and more without the upfront costs associated with an on-premise phone system to purchase, maintain and upgrade. Change how your business communicates when you simplify how you call, chat, meet and collaborate. Increase productivity and enable your team to stay connected whether in the office, at home or from their mobile device.

Security Surveillance

Teleco offers a wide portfolio of IP-based products and solutions for security and video surveillance. We make it easy to protect what matters! Our security cameras, video encoders, accessories and access control products are based on open industry standards and easily integrate with video management software to create a complete security solution which could include:

- Network Cameras
- Video Management Software
- Video Recorders and Desktop Terminals
- Network Audio
- Network Intercoms
- Analytics
- Wearables
- Monitoring

Regardless of business size we offer an end-to-end surveillance and security solution. This means you get a complete security system tailored to your specific needs from one single video camera to a hundred cameras and other networked security devices such as speakers, intercoms and access control products.

Take your security to the next level today.

AV Solutions

At Teleco, we help create business and corporate solutions that deliver quality video and audio experiences for all types of applications including.

- Meeting Rooms
- Executive Conference Rooms
- Huddle Rooms
- Video Conference Rooms
- Training Rooms
- BYOD Wired/Wireless Rooms
- Multi-Site Conference Rooms
- Small Conference Rooms
- Home Offices

Our experts are here to help guide you to the right solution. Your boardroom or conference room needs to have high-quality audio, video and more including full control of your meeting room devices from a single touch pad. We have a wide range of audio/visual solutions which include multiple monitors, projector and screen, power lifts to hide or reveal equipment, web conferencing and integrated audio, video.

We help create an environment that guarantees you and your team are not spending time making technology work.

We make technology work for you.
